

## BULLETINS

### DO YOU QUALIFY?

As an alert young American woman, are you qualified to respond to your country's call for 60,000 new student nurses? Test yourself on the following questions:

Are you between the ages of 17 or 18 (depending on State and school regulations) and 35?

Are you in sound health?

Are you a high school graduate in good scholastic standing, or have you had some college education?

Are you interested in people?

Do you enjoy the sciences?

Have you a sense of humor?

Have you an orderly mind? Are you neat?

Are you deft with your hands?

Are you quick to grasp what you see, read, hear?

Are you able to meet the entrance requirements of your chosen nursing school?

### WHERE TO APPLY

For detailed information on the U. S. Cadet Nurse Corps, get in touch with your local hospital. To join the Corps, apply to the nursing school of your choice. A list of the more than 1,100 schools participating in the Corps program may be obtained by mailing the coupon below.

Select the school that is RIGHT for YOU. Applicants are advised to secure information from at least three schools before making a decision.

## U. S. CADET NURSE CORPS

### IF YOU ARE ACCEPTED

#### YOU PROMISE:

As a Cadet Nurse that you will remain in military or essential civilian nursing for the duration of the war.

#### YOU WILL RECEIVE:

A complete nurse education and become a professional registered nurse . . . Training in a State accredited school of nursing participating under the Bolton Act . . . The benefits of tuition and fees . . . Room and board . . . Books . . . Official Cadet Nurse winter and summer uniforms for optional outdoor wear . . . School indoor uniforms . . . A monthly spending allowance of \$15 during the first 9 months as a Pre-Cadet . . . \$20 a month for the next 15 to 21 months as a Junior Cadet . . . At least \$30 a month for the remaining months until graduation as a Senior Cadet.

Upon graduation, and as a Registered Nurse, you will be ready for employment in the essential nursing service of your choice.

#### YOU WILL WEAR:

Your official uniform with pride. Your winter ensemble consists of a two-piece suit and reefer of gray wool, each highlighted with scarlet epaulets. Also yours are two white crepe blouses, a smart Montgomery beret carrying the handsome cap insignia of the U. S. Public Health Service, and matching shoulder bag.

In summer, you will wear a gray and white striped chambray suit with scarlet epaulets; a gray felt bowler banded in red, or the beret; a white twill shoulder bag and gray raincoat. Silver lapel pins, epaulet and sleeve insignia are worn with both uniforms.

## U. S. PUBLIC HEALTH SERVICE

### FACTS AND FIGURES

To relieve the serious nursing shortage by producing graduate nurses more rapidly, Congress, in June 1943, unanimously passed the Bolton Act making it possible for qualified young women interested in professional nursing to receive all-expense Federal scholarships under the U. S. Public Health Service. All students enrolling under the plan are members of the U. S. Cadet Nurse Corps.

At the present time, student nurses are giving approximately 80 percent of nursing care in civilian hospitals operating schools of nursing. This Nation-wide replacement of graduate nurses by student nurses in our civilian hospitals has made it possible for greater numbers of graduates to go into the military and has also prevented the collapse of civilian nursing care here at home.

Corps members are not placed on the pay roll of the Federal Government. Schools of nursing approved under the Bolton Act receive allotments from the U. S. Public Health Service to help meet the cost of equipping and instructing Cadet Nurse Corps members.

This is a grant-in-aid program.

Applicants do not have to prove financial need in order to be eligible for the U. S. Cadet Nurse Corps as was the case in the former limited Federal nurse training program.

Any member of the Corps enrolled 90 days prior to the end of the war will be permitted to complete her training under the U. S. Cadet Nurse Corps plan.

Signal Corps Photo

*Today* the American nurse serves valiantly on far-flung battle fronts and at home. Hers is the highest of all privileges, the greatest of all satisfactions—that of saving lives.

*Tomorrow* she will take part in a progressive, expanding profession with a future limited only by her ability, preparation, and aspirations. New horizons await in her primary work of patient care: Treatment of disease spread by globe-encircling transportation; exciting new plans for professional nursing; development of experimental health units . . . All contributing to a strong national and international health front. Together the medical and nursing professions are on the march. Sixty thousand new student nurses must join their ranks to meet present and post-war needs. Many of the following fields will be open to graduates of basic nursing courses, others require advanced preparation.

## A PROFESSIONAL EDUCATION—FREE

### NURSE EDUCATOR

Is teaching your forte? Here is an opportunity to help design tomorrow's schools of nursing. You may become a director, head nurse, or instructor in schools that will train our great corps of future nurses.

### PUBLIC HEALTH NURSE

As a visiting nurse, a school or industrial nurse, your work will combine nursing care with the opportunity to educate our citizens in the prevention of disease and to a more healthful way of living.

### PSYCHIATRIC NURSE

The war has intensified the need for expert psychiatric nurses for patients with mental and emotional disturbances. Your work will include shock and chemotherapy and psychotherapy.

### VETERANS' SERVICE NURSE

For many post-war years, this service will care for men disabled in battle. Here you will combine general clinical experience with that of caring for the injuries and diseases of global war.

### HOSPITAL NURSE

A well-rounded nursing career awaits the girl who enters this field as a general staff nurse, a specialist in one of the clinical fields, a teacher, an administrator, an anesthetist or research worker.

### FEDERAL NURSING

The largest single employer of the graduate nurse is the U. S. Government. You may enter the Army or Navy Nurse Corps, the U. S. Public Health Service, or hospitals of the Office of Indian Affairs.

### OTHER NURSING NEEDS

Nursing is always expanding. There are positions for experienced nurses with rehabilitation organizations, with foreign missions, with important national organizations, with research units of large foundations.

### DESIGN FOR LIVING

Nursing is applicable to everyday living. A nurse comes into close daily contact with leaders of great and humane professions. For those who marry, it is excellent preparation for family and civic life.
